ADDISON BROSCHELL

(249) 989 2910 | abrosche@uoguelph.ca | Addison Broschell | LinkedIn | abroschell (Addison Broschell)

TECHNICAL SKILLS

- Languages: C, JavaScript, Python, HTML, CSS
- Development Tools: GitHub, GitLab, Visual Studio Code, Linux
- Other: Figma, Pair programming, Agile Methodologies, Excel, Powerpoint, Matplotlib, Pandas

PERSONAL PROJECTS

Scooby-Doo Monster Website | March 2026 - present

- Designed and developed a multi-page website using HTML and CSS based on the Scooby-Doo universe, featuring monster biographies and different monster types.
- Built navigation, page layouts, and visual elements to create a consistent themed website.

Interactive Drink Order Application | June 2025 - present

- Develop a web-based ordering tool using JavaScript, HTML, and CSS that calculates totals based on user selection.
- Program the application to automatically update pricing when a user changes item sizes, flavour or extras.

EDUCATION

Bachelor of Computing, Software Engineering (Co-op) | September 2025 - present

University of Guelph, Guelph, ON

- Completing an Area of Emphasis in Cybersecurity
- Maintaining an 85% average

Key Academic Project:

Outrun A Horror-Themed Fitness Application *(November 2025)*: Collaborated in a team of 4 to conceptualize a mobile application that utilizes the body's "fight or flight" physiological response to gamify running. Developed a high-fidelity UI mockup using Figma and a detailed requirements document.

EXTRA-CURRICULAR EXPERIENCE

National Center for Women and Information Technology | April 2025 - present

Rising Star Award Recipient / Member

- Rising Star Award Recipient, recognizing aptitude in computing and aspirations in computer science.

WORK EXPERIENCE

Server, Liberty North | Sept. 2022 – Present

- Deliver efficient, high-quality service in a fast-paced, high-volume environment.
- Communicate with guests and team members to ensure smooth and timely service.

Camp Senior Leader, City of Barrie | June 2024 – September 2026

- Lead and support camp leaders while developing daily plans and programming.
- Collaborate with a team of 20 to create an inclusive and engaging camp environment.
